Dimensional Wood Wall Paneling

Our dimensional slatted wood wall and ceiling panels provide a modern modular alternative to custom millwork, bringing warmth and texture to commercial settings.

Live Sawn Veneer Panels From Salvaged Trees

Working with local and underutilized wood materials for the past 28 years has taught us to look beyond the expected and let nature guide what is beautiful, authentic, and possible in building design.

Live Sawn Flooring

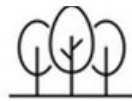

The UE LIVE SAWN Collection offers a cohesive, full product suite from one single sustainable source, including Live Sawn, reclaimed, and ethically sourced hardwood flooring.

Natural Aesthetics

A more connected visual experience to the life and growth of the tree, minimizing waste and celebrating natural character.

Responsible Sourcing

Our wood offering includes a broad assortment of woods from reclaimed projects and regenerative forestry partners across the country.

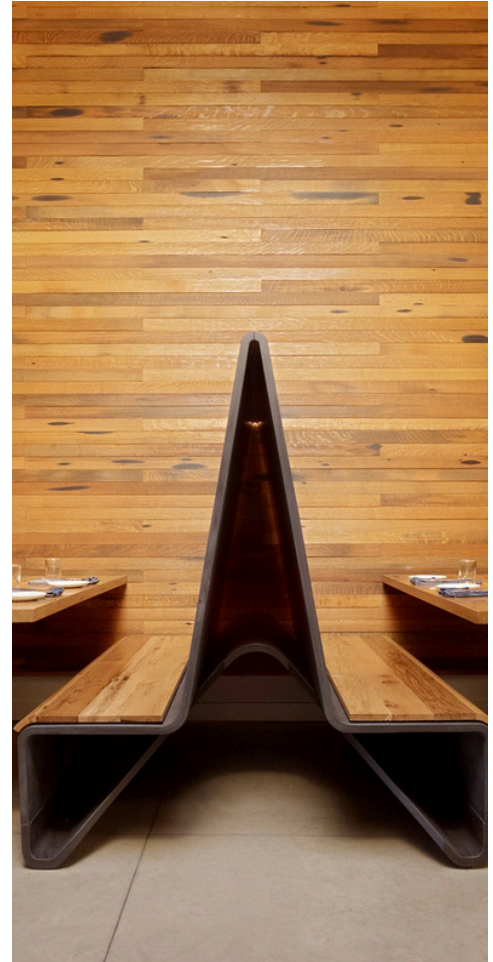

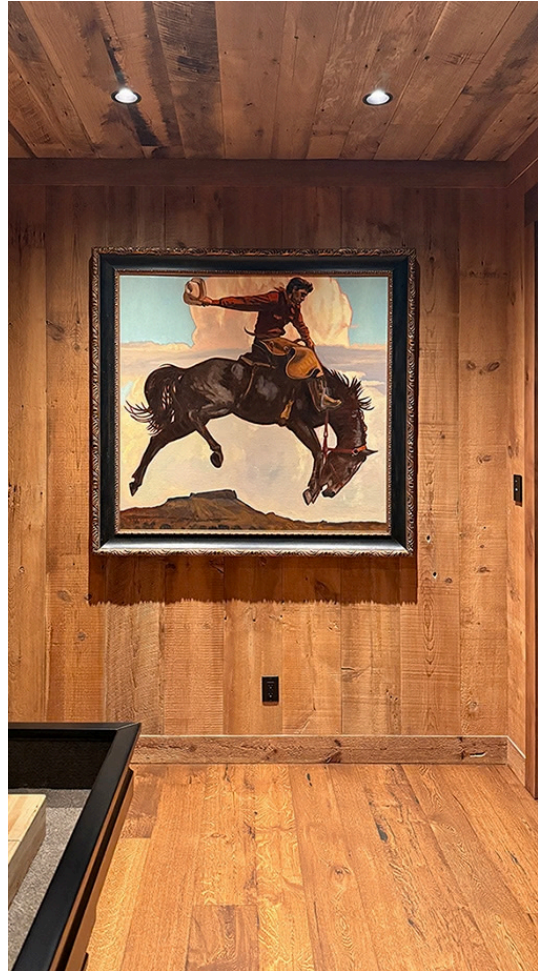

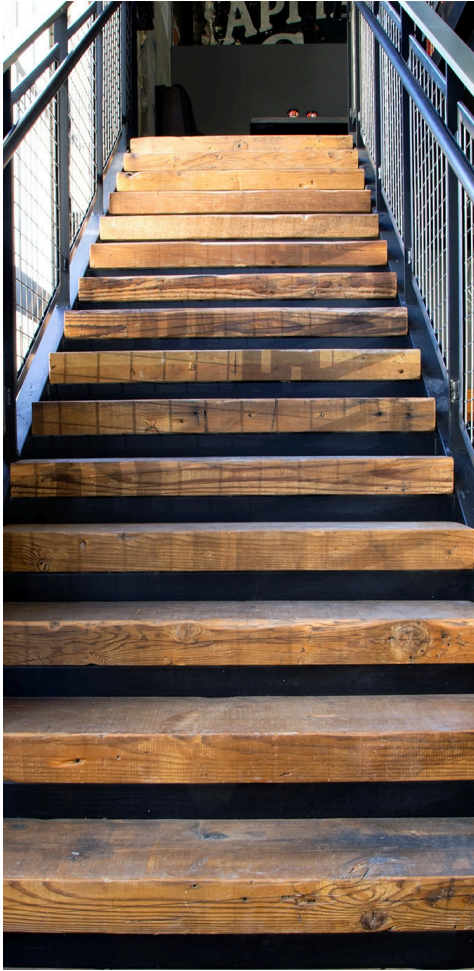

Healthy High Performance Finishes

We use low-VOC, water-based coatings designed for high-traffic commercial spaces. They outperform solvent-based finishes and promote healthier indoor air.

Rustic Reclaimed

Character Driven Materials Rooted in History and Providing Old Growth Durability

For nearly three decades, Urban Evolutions has specialized in made-to-order reclaimed wood flooring, cladding, beams, and treads with commercial-grade finishes. We understand the scale, consistency, and performance required by multi-location hospitality groups.

Table Tops

A New Chapter in Sustainable Wood Design

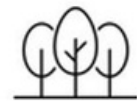

Responsibly Sourced Wood

Carbon Smart™ Wood transforms salvaged trees into spec-ready, traceable wood—responsibly sourced in the U.S. for projects that prioritize both performance and purpose.

Healthy High-Performance Finishes

Finished with low-VOC, water-based coatings made 100% in the U.S. Formulated for high-use commercial settings, they outperform solvent-based alternatives and support healthier indoor environments.

Competitive Pricing & Custom Sizing

Sourcing and manufacturing in the U.S. allows us to select high-quality carbon-smart wood, incorporate custom specs, meet the delivery demands of a fast-paced industry, all while offering competitive pricing.
