

## **ENGINEERED WHITE OAK FLOORING: CHESAPEAKE**

White oak is a versatile, resilient wood that brings warmth and character to any space. This flooring features 3-ply construction, with a solid sawn hardwood face, core and back with a 5mm wear layer.

The Chesapeake finish is single fumed, brushed and finished with a water base oil.

### **FLOORING CONSIDERATIONS**

**CHARACTER/GRADE** Mixed wood grain is present, small knots and checks come pre-filled with epoxy.

**INSTALLATION** Please allow an extra 10% material waste for on-site installation.

**CARE** Please [contact your Urban Evolutions Sales Representative](#).
