## Heart Pine Timber Table | Tables & Table Tops

### Heart Pine Timber Table

Fourteen inch wide heart pine beams are assembled to make this hearty table top with a softly toned original white washed finish and paired with our custom industrial splayed table base.

Heart pine, also known as long leaf pine, is sometimes referred to as southern steel for its toughness. These beams were harvested inside the J.I. Case Co. factories in Racine, Wis. Countless growth rings tell the story of 300 plus year old trees that spent the last 100 years as structural beams in the factory.
