

# RECLAIMED 2" FACTORY MAPLE FLOORING Skip-Planed

Harvested from original flooring from the Case Tractor factories in Racine, Wis., our eclectic batches of deeply scarred factory maple tells the story of work and toil from the last century. The color variation is preserved along with the rustic overtones from cart tacks, boot patterns and mineral stains to provide present users a glimpse into the industrial past.

## MATERIAL SPECIFICATIONS

|                        |                           |
|------------------------|---------------------------|
| <b>SPECIFIC WIDTHS</b> | 2"                        |

| <b>LENGTHS</b>         | 1' - 10' random           |
| <b>MILLED PROFILE</b>  | new t&g                   |
| <b>FINISH</b>          | unfinished or prefinished |
| <b>FLAME SPREAD</b>    | FSI 104 Class III         |

**CHARACTER/GRADE** Fillable characteristics include stable or small open knots, nail and bolt holes, insect marks and pin holes, and non-structural surface checks. Natural variations in grain and color, wear patterns, textures, and, in some instances, saw marks are expected.

Please allow an extra 10-15% material waste for on-site installation.

Pronounced wear patterns, scarring, and nail holes, some slight overwood can be expected.

**CARE INSTRUCTIONS** Please contact your Urban Evolutions Sales Representative.
