## PRODUCT DATA

**Description:** Three-dimensional wall panels with solid wood slats, medallions, and veneer backer on MDF.

**Species Options:** Select White Oak, Select Walnut

**Source Options:** Domestic Timber, Felled City Trees (Urban Wood)

**Dimensions:** 4'x8' panels (standard)

**Weight:** 2 - 3lbs per SF

**Core:** 11/16" MDF, NAF, TSCA Title VI Compliant, Class A Fire Rated and/or FSC Certified Core available on request

**Finish Options:** All standard finishes are Class A Fire Rated.

**Additional Options:** Trim and corner pieces available as well as baseboard for an additional charge. Unfinished wall panels are available upon request.

### Site Conditions

For most installations, we recommend a climatic temperature between 55 to 75 degrees Fahrenheit and 30% to 50% humidity level. Environments that do not meet these criteria will cause wood to experience shrinking and swelling issues that damage the product. We cannot guarantee our product's performance in such environments.

### Installation

Installation materials are not included and must be purchased separately. We recommend screwing the panel directly to studs through the routing pattern before attaching the medallions and slats. Medallions and slats can be face nailed to the panels. Adhesive is optional. Please reference drawing on page 4.

### Grain and Allowances

Natural color and grain variation occur across panels. White Oak and Walnut panels may include sapwood up to 10% of total panel. Small, sound pin knots may occur in solid wood slats.

### LEED

Urban Evolutions veneer panels may contribute toward satisfying the following credits under LEED® v4.1:

M&R – Material Ingredient Reporting – Declare Label

M&R – Sourcing of Raw Materials – Material Reuse (Urban Wood)

IEQ – Low-Emitting Materials – VOC Emissions Evaluation

IEQ – Low-Emitting Materials – Formaldehyde Emissions Evaluation (MDF)

### Sustainability

Our standard offerings are Red List Approved through Declare, CDPH compliant and feature Greenguard Gold finish options.

## RECOMMENDED INSTALLATION

Installation materials are not included and must be purchased separately. We recommend screwing the panel directly to studs through the routing pattern before attaching the medallions and slats. Medallions and slats can be face nailed to the panels.

Alternate installation: MF375 Monarch Z-Clips can also be used to attach panels to wall. Slats and medallions will still need to be face nailed to the panels.

*Note: Slats and medallions are pre-fabricated and disassembled. For easy installation, slats and medallions are numbered accordingly.*
